

Volume 2, Issue 3

Third Quarter 1998

5th HILL COUNTRY SHOOTOUT

Well, the 5th Hill Country Shootout is now history. There were 250 or so shooters in attendance in spite of 100+ temperatures and everyone seemed to have an enjoyable time.

There was a good crowd Friday night to eat up several gallons of Gumbo delivered to the shoot from Kinder, Louisiana by Blane Richard (that's pronounced Reeshard) a friend that does not even shoot a bow and he had to be back in Kinder by 6:00 am for Little League. Thanks Blane!

The rest of the weekend went well. Our Range Fier, ugh, Captain, Steve Hawkins, did an outstanding job with the help of Tyson Schmidt keeping water and drinks available on the range.

The method of giving out prizes seemed to be favorable to everyone. Buckles and plaques were awarded to the top shooters, and then there were hunts, bows and other stuff given out in a scorecard drawing. All scorecards were in the same pot regardless of age or class. The rest of the prizes were in a raffle and everyone seemed happy with the results.

Thanks to Rusty, Ann Marie, and Mike with the Shudde Ranch for cooking and serving over the course of the weekend. The food was good and the drinks were cold.

Special thanks to Pete Denney for hosting the shoot on his ranch. The only problem we had was trying to decide which location to choose for the shoot. We had several options and all of them were very nice.

Thanks to all of the bowyers and vendors that came and setup. With out your support this event would not be the success it is.

Thanks to the following for help setting up and/or taking down the range. Larry and Tina Zimmerman; Bryan and Debbie Keeling; David Flores; Mike O'Neal, Dennis Mulder; Denny Mulder; Tyson Schmidt and Steve Hawkins.

Last but not least, thanks to all of you that came and played with us. This event is for you and we tried very hard to correct problems from last year and make it better. From the response received so far, I believe that goal

was accomplished.

Next year's shoot has been scheduled for April 17 and 18, 1999 at the Bugscuffle Ranch in Vanderpool, Tx.

We feel cooler temperatures would make things much more enjoyable for all involved. We will keep you informed as things progress, but it will be safe to mark your calendars now. We've had our heads together already planning for next year and I can promise a fun and challenging range.

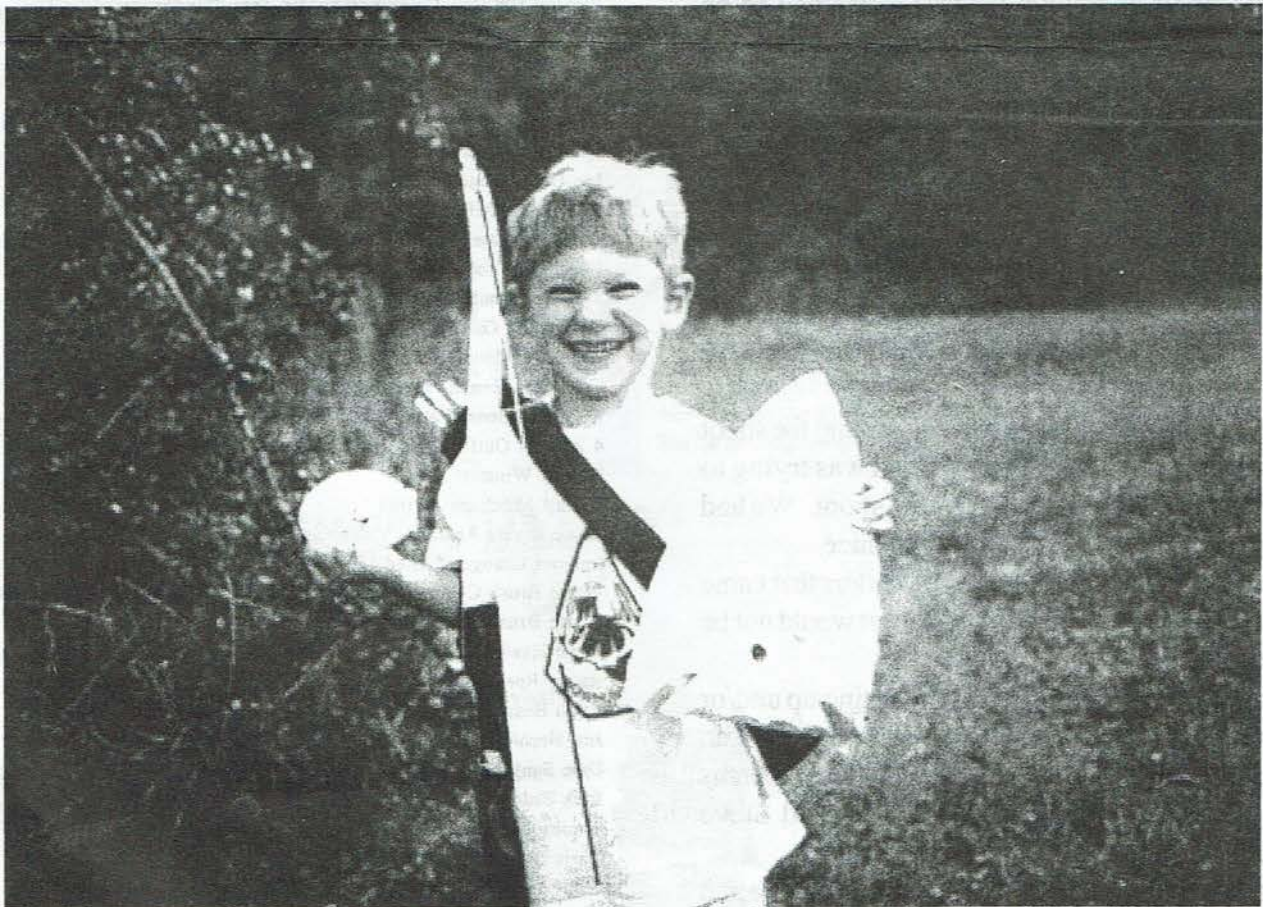

Traditional Bowhunters of Texas would like to thank the following people for their contributions:

Larry and Tina Zimmerman of Z's Furniture & Archery- Picture Frames
 David Bailey- Metal Wildlife Cut-Out
 Mike Palmer/Palmer Bow Co.- Custom Recurve
 Tommy Palmer- Texas Tree Seat
 Weldon Holden- Texas Forkhunter Tree Stands
 Bob Lee Archery- 50% discount of Bob Lee Signature Bow
 David Flores/Ridge Creek Supply- Shirt
 Joe Mattingly- Osage Selfbow
 Kathy Kelly - Fanny Pack
 Spin Cast Feeders- 2 Feeders
 Joe Dunn/Gametamer Stands- Quadpod
 Bill Medcalf- Flint Head
 Eddie Stamater- Book and 2 Stone Heads
 Bugscuffle Ranch- Hog Hunt
 Trulove Ranch- Hog Hunt
 Bushy Hill Game Ranch- Hunt
 Oran Hill- Hunt
 Callaghan Ranch- Javelina Hunt
 Bill and Jolene Watson/South Hills Ranch- Hog and Javelina Hunt
 4 Arrows Outfitters- Nilgai Hunt
 Leland Winsett- Knife
 Danny Mitchum- Prints
 Three Rivers Archery- Videos and broadheads
 Lamont Granger/Footed Shaft- Feathers and Shafts
 White Brush Custom T-Shirts- Mandella and Friendship Bracelets
 White Brush Archery- Longbow set, feathers
 Steve Hawkins- Arrows, Broadheads, Feathers and Bowfishing Rig
 Randy Reeves/Greywolf Bows- Longbow
 Keith Bass- Bow
 Jim Nech/Grey Goose Bows- Custom Longbow
 Dale Sanford/Winterwind Bows- Custom Longbow
 Rick Erdmann/Sweptwing Bows- Custom Recurve
 Traditional Bowhunter Magazine- 2 Subscriptions
 Chris Brown- 2 Handmade Pens
 Stan Smiley/5 Star Hunting Services- Hunt
 Carol, Bobby, Kelsi, and Zachary Buff- Handtooled Back Quiver

I'm sure I've left someone out, I always do, but it is not intentional. If you were left off the list please contact me and I'll list you in the next issue of the newsletter.

The Arizona crew showing Bryan Keeling how it is done.

Forrest Red with a First Place Buckle; Youngest Shooter Award and he also won a Custom Winter Wind Longbow in the Scorecard Drawing.

Legislative Report

By Mac Freeman

The agenda for the Texas Parks and Wildlife Commission meeting on June 4, 1998 contained two items which would impact hunters in general and one that directly addresses bowhunting.

The first item was the Commercial Non-Game Permits. This proposal would essentially require a Non-Game license, for a fee of course, for anyone to take, collect, possess, or sell any of over two hundred listed non-game species. Permit holders will be required to keep a collection log and to make reports to Parks and Wildlife staff information on the commercial use of non-game species. There was considerable discussion with over twenty people voicing their concern or support. Several amendments were made to the original proposal. As finally approved it will only apply to live mountain lions, bobcats and coyotes. Also exempt are individual possessing less than ten of any one species. If you have a valid hunting or trapping license you can still take a lion, bobcat or coyote.

The next item, which directly addresses bowhunter, was the Managed Lands Deer Permits. Regulations regarding these permits were already in effect, but modifications were made to extend the period during which whitetail deer can be harvested. The hunting season on lands governed by Managed Lands Deer Permits will begin the Saturday closest to 30 September, and legal method may be used (at the landowners discretion as always) and the archery only season will not exist nor will an archery stamp be required of bowhunters on these lands. Since these are intensive managed lands with many requirements

on the landowner and since bowhunting is still allowed there should be little negative impact on bowhunters

The item which I personally believe will have a negative impact on hunting was the Deer Management Permit. This will permit landowners who have an approved deer management plan to obtain a permit to trap and pen wild deer for breeding purposes. This permit was authorized by the Texas Legislature in its last session and TP&W was charged with its implementations. There are a long list of restrictions included in the regulation including marking the deer with yellow paint, required trapping and release periods, and approval of the management plan by TP&W supervisory personnel. My concern, and that of many others who spoke against the proposal, is that the public will view this as raising and releasing tame or semi-tame deer with large antlers so that they can then be shot by someone who is willing to pay big bucks for a trophy. Whether or not this is true, this is the perception that the antihunters are sure to exploit. In fact, Don Barnes, a spokesman for the antihunting group, Voice of Animals, stated that national attention to this situation will make Texas the laughing stock nation wide. The proposal passed with minor changes regarding release dates. In defense of TP&W, they were served this hot potato by the legislature and have done their best thru numerous restrictions to prevent "canned hunt" situations. It will now be up to TP&W to enforce the restrictions in such a manner that the claim of shooting tame, pen raised deer will not be valid. Altering the public perception, whether or not the perception is true, may be a task beyond their capabilities.

Approximately $\frac{1}{2}$ Mile East of the Shamrock Store at the corner of Hwy 21 and Loop 2818. Turn North on Louis St. just past the yellow tire store. The range is $\frac{1}{4}$ straight ahead.

RANGE CAPTAIN

Steve Hawkins-

I have been bowhunting for the last 10 years and enjoy every aspect of the sport. I like building my own arrows and shoot both longbow and recurve. I have been lucky enough to have been TBoT's "Range Captain" for the last 2 years. I would like to continue the work involved with being Range Captain if elected for the next term.

SECRETARY/REPRESENTATIVE AT LARGE

Debbie Keeling-

Our names are Debbie (Secretary) and Bryan Keeling (Representative At Large), I'm 35 and Bryan is 33 years old. We have a 15 year old daughter named Codi. Bryan and I run the Bug Scuffle ranch in Vanderpool. The ranch is bowhunting only which helps Bryan and I get to know quite a few of you. We both shoot with recurves and longbows,. We love to hunt and we also enjoy 3-D Shoots. We're very lucky to have bowhunting as a job and as a sport. We both get excited when the TBoT newsletter comes to our house, we love to read the different stories about all the bowhunters that send their stories in, and we would like to be a part of that. We will both find the time to dedicate to TBoT with pleasure.

TREASURER

Tina Zimmerman-

My name is Ernestine (Tina) Zimmerman. I live in Sabinal, Texas. Bobby asked me for my age, but you are not getting it. I am married. Have two children and two grandchildren. Have been in archery and bowhunting for about 30 years. I am a LIFE member of the LSBA and of TBoT. I am currently the secretary of the LSBA and have served on the board several times. I was put into the LSBA Hall of Fame this last March.

LEGISLATIVE CHAIRMAN

Mack Freeman-

I am a 64 year old bowhunter currently residing in Belton, Texas. I am retired after 21 years military service and 18 years at Scott and White Hospital in Temple, TX. I am married to my good friend and former hunting companion, Livia Freeman. We have two sons who are both married and live out of state. My first bowhunt was in 1954, in Colorado. For many years I was a two season hunter, but I really became serious about bowhunting in 1979 and have hunted only with a bow for big game since 1986. I made allot of mistakes in the early years since I had no one to teach me. That's why I am so involved in Bowhunter Education. I belong to the National Bowhunter Education Foundation, The Rocky Mountain Elk Foundation, am a regular member of the Professional Bowhunters Society and a Life Member of the one Star Bowhunters Association as well as a member of the Traditional Bowhunters of Texas. For many years I was not a member of any bowhunting organization. My excuse was that my primary interest was hunting, I hated politics, and I didn't want to get involved. I finally came to realize that we all need to be involved in protecting hunting to insure the future of bowhunting. The past few years I have been to most of the Texas Parks and Wildlife Commission meeting as well as some sessions of the State Legislature where items pertaining to hunting were under discussion. In both places I have found the rules or changes to the rules are made by those who show up and the antihunters always are there. I feel it is important that traditional bowhunters be represented and will do my best to represent the Traditional Bowhunters of Texas if elected.

REPRESENTATIVE FOR NORTH TEXAS

Mark Davies-

I am 31 years old. I shoot an Alaska Peninsula Longbow. I enjoy hunting whitetails, turkeys and hogs also small game hunting. The rest of my time is spent building arrows and flintknapping. I work as an engineering tech at Texas Instruments. Dedicated to promoting Traditional Bowhunting. Associate member Professional Bowhunters Society.

REPRESENTATIVE FOR EAST TEXAS

Mike O'Neal-

My name is Mike O'Neal. I am 27 years old and I have been hunting for 24 years. I shoot both recurves and longbows and shoot 3-D as well as hunt as much as possible. My wife, Sharon, shoots and hunts as well. I live in the North Houston area and will be glad to do all I can for TBoT as an Area Representative.

Comments About The Shoot

Thanks for a wonderful time at Sabinal. Your wife is pretty, you have a good personality and I want your son's bow.
- **Van Harrell**

I too, had a great time, in spite of the heat. In fact, I saw one woman staring at the ground; when I asked her what she was looking for, she replied, "I was looking for the grass to catch on fire any minute". I shot with Larry Dix (brought your chairs with me Larry) Van, and Danny Long... What a great bunch of guys, and some really good shots too! The course was set up very realistic for traditional gear, with a couple novelty shoots thrown in... Good job TBoT workers and volunteers! I'll be there next year. - **Matt Napper**

Bobby, I had a great time at the shoot. I think the young man I brought is hooked. We had to leave early, so I didn't get to stay around much. I looked for your to say BYE, but missed you. Thanks again. - **Joe Mattingly**

Bobby, one of the more realistic courses that I've ever shot for traditional, except that I think that marble was weighted with lead or something. Of course, I might be getting too old to move that quick, naw. Good job guys, Congratulations and good huntin'. - **Guy Skinner**

Really had a ball shooting with you guys. Great course Bobby! Sorry i didn't get to shoot Sunday. Had a little problem at home that required my attention. Next year though. The good Lord willing and the creek don't rise, I'll be there. - **Larry Dix**

Bobby, just wanted to say you did an exceptional job on this years shoot. It was the most realistic course I've shot. I had a great time meeting everyone. Thanks again! - **Doug Davies**

I want to thank the Buffs, Keelings, Zimmermans, Dennis and Pete and the many others who made the shoot so enjoyable. Chris, who went home with two new bows, would like to thank all the bowyers for the donations of their bows. It was nice to see him win. He got a new CD player for his truck a couple of weeks back for graduation and some maggot stole it the first week. It definitely lifted his spirits. I enjoyed the company of the LW folks who were there. Hope to see all you next year in April, March, or even January. Carol, the Mexican food in Hondo was great! - **Mike Brown**

Bobby, Just wanted to let you and your wife know how much Peggy and I enjoyed the TBoT Shootout at the Brushy Hill Ranch in Sabinal this past weekend. I especially enjoyed the challenging and creative layout of the targets. I know it took allot of thought, planning, time and hard work to make this event a success. Also enjoyed looking at all the archery equipment and visiting with all the very nice and friendly people attending this event. Again, congratulations on a job well done! - **Marvin E. Huckle**

Bobby, I had a great time there in Sabinal. Thanks for all the work in getting the shoot organized and all of the HARD work in the heat while setting up the course, Great job. Apologies for having to leave early on Saturday. - **Danny Long**

In Memory of Carl Newsom

Born February 28, 1936 Died April 8, 1998

by Butch Gleghorn

A traditional bowhunter and target archer, Carl helped start the first archery club in San Angelo in the late 1960's. Field archery was ongoing and Carl and a few other members cleared part of the range to put in the hunter round. Carl stayed with this club until people lost interest in field archery. Carl and Gerald May approached Raymond Adams in 1981 about putting in a range on Raymond's land, thus was born "The Devil's Mountain Bowhunters".

Carl put on clinics for bear archery from the mid 1970's until the mid 1980's. He gave clinics all over west Texas and got a lot of people interested in archery through these clinics.

Devil's Mountain had the first 3-D shoot in west Texas. One of our members was in Washington State attending a shoot that had homemade 3-D targets. When he returned he told Carl about it and Carl ended up making the first 3-D target, a javelina. Carl's enthusiasm caught on with club members. By 1983, we had 30 3-D's and had over 200 shooters at our annual shoot. Members were so impressed and enthusiastic that by 1984 we had 60 3-D's, 30 American and 30 Exotics, and had over 300 shooters at that shoot. After 14 years, we still shoot some of these 3-D targets.

Carl was a very good shot at 3-D tournaments. If you out shot him (even on one of his bad days and he didn't have many) you knew that you had shot good. In nine trips to the Texas State Longbow Championships, he only missed earning a buckle two years.

Carl was an avid bowhunter, from mule deer in New Mexico to javelina in South Texas. Like many of us, Carl wanted a Pope & Young whitetail. He never achieved this, but came real close this past hunting season by harvesting a buck that grossed 124 $\frac{7}{8}$ and netted 121 $\frac{6}{8}$.

Carl's last hunting trip was in February, 1998 to Maurice Chambers Ranch in Sabinal, Texas. James Bell, Charles Hall, Henry Dusek, Mike Tounget and myself accompanied him on this trip. Carl harvested two wild hogs and the hunt was enjoyed by all.

Pastor Ed McCorkle, presiding at Carl's funeral said "He may not have harvested a Pope & Young animal, but Carl was a Pope & Young person and archer.

So we say good-bye to a traditional archer, bowhunter and friend and we wish his spirit Godspeed.

THERE'S A SILENCE ON THE ARCHERY RANGE

By James Bell

On April 8, 1998 the archery world lost a longtime member, Carl Newsom. After attending his funeral, several of his friends met and swapped stories about their experiences with Carl. I sat and mostly listened to their hunting stories, since I had only hunted with Carl a few times. We had shot at archery tournaments many times though so after the get together, I decided to go to the range and shoot a few arrows in his memory.

As I walked around the range shooting the various targets, the memories of Carl came flooding back. Whenever anyone arrived at a tournament, Carl was always the first to greet them with his loud and coarse voice. His voice would carry across the range like a shot fired from a cannon. You always knew where he was by following his voice. Carl had a lot of personal pain and setbacks in his life, but he always had a big toothy grin on his face. If you shot with him, he would not let you get down or be sad about anything. His humorous antics were infectious. I have known many people who would travel to tournaments just to shoot with Carl because it was so much fun to shoot with him.

Carl had a way of making you feel you had shot good, even if you hadn't. He always shot good, but never admitted it when asked. He would just say he wasn't really pleased with his score and then usually finish in first place!

Now there's a silence on the archer range and this sound is deafening.

Carl's last hunt; Henry Dusek (left) Carl on the right with one of the two he harvested.

Biographies

PRESIDENT

Bobby Buff-

My name is Bobby Buff, I'm married to Carol, and have a daughter, Kelsi (10), and a son, Zachary (8), all of whom shoot and hunt with traditional equipment.

I'm sure most of you know of me by now. In 1992, Billy Moreton, Roland Jenkins, Loren Behrens and myself decided to start a traditional club so that people of similar interest could get together, compare notes, equipment, and ideas and shoot Traditional only shoots. After that, at one time or another over the last 6 years, I have been Editor, Treasurer, Range Fairy, shoot Coordinator and most any other job you can think of that is needed to keep an organizations of this type running. I've had allot of help along the way for which I'm grateful. At the present time TBoT has over 500 members in Texas and 10 other states.

As President, I'd like to see the Hill Country Shootout grow to a thousand people; more donations made to youth groups; and possibly a TBoT Awards Banquet. This is not all of my goals, but the most important one is the support of our youth. I firmly believe our youth is our tomorrow and we have to get them involved if there is to be a future for bowhunting and hunting in general.

As in the past, as President, I welcome all comments about TBoT. As we have always said, this is your organizations and we respect what you think. Thank You.

VICE PRESIDENT

David Bailey-

I have recently been nominated for Vice President of TBoT, which is a great honor. Many of you may not know me and in order to receive your vote to be elected to this position, I felt it would be helpful if you knew a little about me and my family.

I'm 42 years old and have been married to Adrienne, my high school sweetheart for 24 years. We have three children Stephanie (23), Jason (19) and Cody (12). We have lived in Franklin, Texas since 1988 and are active members of the Franklin United Methodist Church.

My involvement with traditional archery began in 1993 with TBoT. Not being involved with any type of archery prior to this time, it has been very challenging and exciting. I am an active member of the Brazos County Archery club and have been serving on the board of directors since 1996. In 1997, I was elected to the position of Vice President. My responsibilities include range master, organizing various shoots and general club operations. I will resign from this position in September of 1998.

If elected, I will bring two years of board experience and the desire to see TBoT, grow financially and in membership. The willingness to listen and help its members no matter what the situation may be. To help maintain the values which we as archers and bowhunters need in order to keep our sport growing. The continuing dedication to work with other organizations.

In closing there is one more item that is very important to me, it is being involved with our youth. The youth of today will be our replacements. We need to give them every opportunity to be involved and learn as we learned from those before us.

Thank you for your time and consideration. Your vote would be greatly appreciated. I look forward to meeting and working with you.

Dennis Mulder-

Hello fellow bowhunters I would like to introduce my family and myself to those that don't know me or I haven't met yet. My name is Dennis Mulder also known as "mullet", but we won't get into that right now. I've been married to my wife Betty Ann for twenty-five years, we have two great children; Cynthia, my daughter is twenty-three and will be married on August 1st of this year and my son Dennis (19) who got his first traditional bow kill this year. As a family we have always loved and respected the Great Outdoors. I have taught my children to respect and to take care of the outdoors, and I'm very proud to say that they do love and respect the things God has given us.

I've been bowhunting for some twenty years now, been shooting the traditional way for four years now and love every minute I get out to shoot my recurve or my longbow! I have some strong beliefs and if you ask my friends they will tell you that I'm not afraid to express my opinion. I feel that to keep our sport alive and well, is to get the youth involved in our sport. I also believe that if you or anyone has a question or problem that my phone or e-mail is always ready for you to contact me.
